

FIRST TERM LECTURES (MEDICINE + SURGERY)

	MEDICINE
1	Acute Coronary Syndromes
2	Arrhythmias
3	Valvular Heart Diseases
4	Heart Failure-Aetiology and Diagnosis
5	Heart Failure – Prognosis & Management
6	Rheumatic Heart Disease
7	Infective Endocarditis
8	Cough
9	Bronchial asthma
10	Chronic Obstructive lung Disease and bronchiectasis
11	Pulmonary Embolism
12	Pleural effusion
13	Investigation of Lung Diseases
14	Community Acquired Pneumonia
15	Hypertension
16	Acid base disorders
17	Electrolyte Imbalance (Potassium & Calcium)
18	Electrolytic Imbalance (Sodium & Water)
19	Acute kidney injury (AKI)
20	Glomerular Diseases
21	Chronic Kidney Failure
22	Gastrointestinal bleeding
23	Inflammatory bowel disease
24	Acute viral hepatitis
25	Liver cirrhosis and complications
26	oesophageal diseases
27	Chronic Diarrhea
28	Abdominal Pain include IBS

Medicine: 28 Lec.

7 Cardio :: 7 Res :: 7 nephro :: 7 GIT

	SURGERY
1	Emergency in Urology
2	Atherosclerosis, (PAD+carotid stenosis) Acute Limb Schemia
3	Presentation & management of common thoracic diseases
4	Common urogenital tumors incl. Adrenals
5	Blood products & transfusion
6	Shock and metabolic response to surgery
7	Cardiac surgical disease
8	Sterilization & operating room setup
9	Surgical infections & antibiotic
10	Wound healing & wound infection/Injuries due to burn
11	Adult urinary tract disorders
12	Paediatric inguinal & scrotal conditions
13	IV fluids and acid base disorder
14	Paediatric urinary disorders
15	Acute Abdomen (perforated DU, SBO, mesenteric ischemia, appendicitis)
16	Oesophageal diseases
17	Approach to Surgical Abdominal Problem in Pediatric
18	Stomach & duodenum
19	Differential diagnosis of abdominal masses & abdominal hernias
20	Portal hypertension & common surgical diseases of the liver
21	Pancreatic problems
22	Biliary obstruction and Biliary stones
23	Anorectal conditions
24	Inflammatory bowel disease (IBD)

Surgery : 24 Lec.

9 CardioRes :: 5 nephro :: 10 GIT

Themes

CARDIORESPIRATORY

NEPHROLOGY

GASTROENTEROLOGY & HEPATOBILIARY
